Restoration at the Cataldo Mission

July 5 - 12, Mission of the Sacred Heart, Cataldo

Preservation is ongoing with historic buildings. The weather will eventually deteriorate the wood members and require repair and/or replacement. This summer the expert preservationists from the National Park Service will be repairing areas of the pedestal, base, and shaft of the front columns of the Mission. They will travel from Ebey's Landing National Historical Reserve in Coupeville, WA to do the work. For all of you preservationists, it's an opportunity to watch a well executed "dutchman" repair.
